

AIR SERBIA VARIOUS LIMITATIONS AND RESTRICTIONS

21.06.2016

A319

Aircraft: 8

Seats: 128

Cargo capacity: 2000kg

Weight limitation

Heavy pieces (HEA) – 150kg and more – max dims 120x110x115cm

Max weight per piece as per table [Weight limitation per station](#) - page 11

Upper limit – 350kg with approval from Air Serbia Customer service (cargo_booking@airserbia.com)

Restrictions

Live Animals (AVI) – not allowed to transport except live fish but not tropical

Perishable goods (PER) – allowed – temperature control and ventilation not available in aircraft

Radioactive shipments – TI max 3 – see table [Radioactive materials: TI max 3](#) – page 2

Dangerous goods – allowed to transport in accordance with JU restrictions published in IATA DGR and JU GOM

Following Dangerous goods are forbidden on JU flights: Limited qty (Y), RLM/ELM and RLI/ELI UN3480, P1965

For verification of DG cargo_booking@airserbia.com

Military and sporting weapons (MUW,SWP) and explosives (RXS, only 1.4S)- allowed to transport only with prior approval from Air Serbia Customer service cargo_booking@airserbia.com

Approval from Civil Aviation Directorate (CAD) must be obtained and following documents are required:

- ❖ **Export and Import License**
- ❖ **End User Certificate,if applicable**
- ❖ **Packing list**
- ❖ **AWB copy**
- ❖ **Shipper's Declaration for DG for RXS (only 1.4S)**

Also, overflight permit must be obtained for MUW

Dry ice (ICE) – allowed in quantities specified in table [A319 ICE](#) – page 2

A319 ICE

A319 Registration YU-	Scheduled Flight Time (hh:mm)	Maximum Dry Ice (kg)	
		Compartment	
		1	4+5
APA	Up to 01:00	5.0	10.0
APB	01:01-02:00	2.5	5.0
APC	02:01-03:00	1.6	3.3
APD	03:01-04:00	1.2	2.5

APF	05:01-06:00	0.8	1.6

Radioactive materials: TI max 3

Total Sum of Transport Indices (T.I.)	Maximum package Height (metres)	Minimum Separation Distance from Cabin floor (metres)	Loading Position Permitted
0.01 to 1.00	0.94	0.30	Compartments 1 & 4 only
1.01 to 2.00	0.74	0.50	
2.01 to 3.00	0.54	0.70	
3.01 to 4.00	NOT PERMITTED		
4.01 or more			

A320

Aircraft: 2

Seats: 155

Cargo capacity : 2500kg

Weight limitation

Heavy pieces (HEA) – 150kg and more – max dims 120x110x115cm

*Max weight per piece as per table **Weight limitation per stations** - page 11*

Upper limit – 350kg with approval from Air Serbia Customer service (cargo_booking@airserbia.com)

Restrictions

Live Animals (AVI) – allowed to transport

Perishable goods (PER) – allowed – temperature control and ventilation not available in aircraft

*Radioactive shipments – TI max 3 – table **Radioactive materials: TI max 3** – page 4*

Dangerous goods – allowed to transport in accordance with JU restrictions published in IATA DGR and JU GOM

Following Dangerous goods are forbidden on JU flights:

Limited qty (Y), RLM/ELM and RLI/ELI UN3480, PI965

For verification of DG cargo_booking@airserbia.com

*Military and sporting weapons (MUW,SWP) and explosives (RXS, only 1.4S)- allowed to transport only with prior approval from Air Serbia Customer service cargo_booking@airserbia.com
Approval from Civil Aviation Directorate (CAD) must be obtained and following documents are required:*

- ❖ *Export and Import License*
- ❖ *End User Certificate,if applicable*
- ❖ *Packing list*
- ❖ *AWB copy*
- ❖ *Shipper's Declaration for DG for RXS (only 1.4S)*
Also, overflight permit must be obtained for MUW

*Dry ice (ICE) – allowed in quantities specified in table **A320 ICE** – page 4*

A320 ICE

A320 Registration YU-	Scheduled Flight Time (hh:mm)	Maximum Dry Ice (kg)	
		Compartment	
		1	3+4+5
APG APH	Up to 01:00	7.3	243.0
	01:01-02:00	3.6	
	02:01-03:00	2.4	
	03:01-04:00	1.8	
	04:01-05:00	1.4	
	05:01-06:00	1.2

3.01 to 4.00	NOT PERMITTED		
4.01 or more			

A330

Aircraft: 1

Seats: 254

Cargo capacity: 20,000kg

Weight limitation (PMC pallet)		
Base size (W x L)	244 x 318 cm	96 x 125 in
Usable loading area (W x L)	230 x 304 cm	91 x 120 in
Max. height	160 cm	63 in
Max. gross weight (per PMC)	5103 kg	11,250 lbs.

Restrictions
Live Animals (AVI) – allowed to transport
Perishable goods (PER) – permitted to transport–temperature control available in aircraft Hold 1– see table Temperature control Hold 1- page 6 For PER shipments over 1000kg – contact Air Serbia Customer service (cargo_booking@airserbia.com)
Radioactive shipments – see table Radioactive Material (RRY) A330-200 – page 7
Dangerous goods – allowed in accordance with JU restrictions published in IATA DGR and JU GOM Following Dangerous goods are forbidden on JU flights: Limited qty (Y), RLM/ELM and RLI/ELI UN3480, PI965 For verification of DG cargo_booking@airserbia.com
Military and sporting weapons (MUW,SWP) and explosives (RXS, only 1.4S)- allowed to transport only with prior approval from Air Serbia Customer service cargo_booking@airserbia.com Approval from Civil Aviation Directorate (CAD) is mandatory and following documents are required: ❖ Export and Import License ❖ End User Certificate,if applicable ❖ Packing list ❖ AWB copy ❖ Shipper's Declaration for DG for RXS (only 1.4S) Also, overflight permit must be obtained for MUW
Dry ice (ICE) – see quantities in table – Dry Ice A330-200 – page 8
Valuable cargo (VAL) – shall be loaded using a Valuable Cargo Box in cpmt 5 or in a closed ULD

Temperature control Hold 1

Registration	Options	FWD Hold		AFT Hold	BULK Hold	
YU-ARA	Temperature Select*	COLD: 5°C (41°F) MID: 15°C (60°F) HOT: 25°C (79°F)		NO	COLD: 5°C(41°F) MID: 15°C(60°F) HOT: 25°C(79°F)	
	Cooling	YES		NO	NO	
	Ventilation	YES		NO	YES	
	Perishable Cargo	YES		YES [1]	YES	
	AVI/PET	YES [3]		NO [4]	YES	

- [1] No ventilation or temperature control available. Another compartment should be used if available
- [2] No temperature control available. Another compartment should be used if available
- [3] Do not use closed ULDs for AVI/PET (except live fish)
- [4] Except live fish (non-tropical only)

*Cargo compartment temperature is controlled from the cockpit only, and may vary due to such factors as flight duration, outside temperature and cabin temperature. As a result, the actual temperature may be higher than the one indicated by the selector position.

Radioactive Material (RRY) A330-200

Loading Height	Max T.I and Allowed Loading Areas				Bulk
	Forward Hold		Aft hold		
	12P 13P 11L, 11R 12L, 12R 13L, 13R 14L, 14R together	21P 22P 21L, 21R 22L, 22R 23L, 23R together	31P 32P 31L, 31R 32L, 32R 33L, 33R together	41P 42P 41L, 41R 42L, 42R 43L, 43R together	
H3 101 cm to 150 cm	1.0 T.I.	1.0 T.I.	1.0 T.I.	1.0 T.I.	51, 52, 53 together 1.0 T.I.
H2 51 cm to 100 cm	3.0 T.I.	3.0 T.I.	3.0 T.I.	3.0 T.I.	
H3 up to 50 cm	8.0 T.I.	8.0 T.I.	8.0 T.I.	8.0 T.I.	

Exception 1: ULD's with RRY shall be separated horizontally from other ULDs by either a minimum of 1 pallet or 2 containers; the rule applies regardless loaded in 2 separate compartments.

Exception 2: If RRY is loaded in the Aft hold and RRY is loaded in sector 51 / hold 5, RRY cannot be loaded in positions 43L/R 42L/R or 42P.

Dry Ice A330-200

Registration	Scheduled Flight Time (hh:mm)	Maximum Dry Ice (kg)		
		Compartment		
		1+2	3+4	5
YU-ARA	Up to 02:00	799.0	16.7	237.0
	02:01-04:00		8.3	
	04:01-06:00		5.5	
	06:01-08:00		4.2	
	08:01-10:00		3.3	
	10:01-12:00		2.8	
Ventilation inoperative	Up to 02:00	20.0	16.7	5.3
	02:01-04:00	10.0	8.3	2.6
	04:01-06:00	6.6	5.5	1.7
	06:01-08:00	5.0	4.2	1.3
	08:01-10:00	4.0	3.3	1.0
	10:01-12:00	3.3	2.8	0.8

In non-ventilated holds or where the ventilation is inoperative, where the total journey time of the dry ice exceeds the times given above, the applicable hold(s) shall be opened for a minimum of 5 minutes at the transit station(s) in order to provide ventilation

ATR-72

Aircraft: 6

Seats: 66

Cargo capacity: 300kg

Weight limitations

Max weight per piece is 200kg

Heavy pieces (HEA) – 150-200kg – max dims 120x60x90cm

Max dims for pieces weighting up to 100kg – 120-80-100cm

Max dims for pieces weighting from 100-150kg – 120-70-100cm

Air Serbia Customer service mail: cargo_booking@airserbia.com

Restrictions

Live Animals (AVI) – not allowed to transport

Human Remains (HUM) – not allowed to transport

Dangerous goods – any kind of DG not allowed to transport(except ELI UN3481 PI966 and967 Section 2)

Military and sporting weapons (MUW,SWP) and explosives (RXS, only 1.4S)- not allowed to transport

*Valuable cargo (VAL) – allowed to transport when placed in Valuable Container Box (VCB)
To order VCB with seals contact Air Serbia Ground Service ASGS.Cargo@airserbia.com*

B733

Aircraft: 4

Seats: 144

Cargo capacity: 800kg

Weight limitation

Heavy pieces (HEA) – 150kg and more – max dims 120x110x82cm

Weight per piece (per destination)– see table **Weight limitation per Stations** - page 11

Upper limit – 350kg with approval from Air Serbia Customer service (cargo_booking@airserbia.com)

Restrictions

Live Animals (AVI) – allowed to transport

Perishable goods (PER) – permitted to transport – NO temperature control and ventilation available in aircraft

Radioactive shipments – TI max 3

Dangerous goods – allowed to transport in accordance with JU restrictions published in IATA DGR and JU GOM

Following Dangerous goods are forbidden on JU flights: Limited qty (Y), RLM/ELM and RLI/ELI UN3480, PI965

For verification of DG cargo_booking@airserbia.com

Dry Ice (ICE) – max 100kg per compartment

Military and sporting weapons (MUW,SWP) and explosives (RXS, only 1.4S)- allowed to transport only with prior approval from Air Serbia Customer service cargo_booking@airserbia.com

Approval from Civil Aviation Directorate (CAD) must be obtained and following documents are required:

- ❖ *Export and Import License*
 - ❖ *End User Certificate,if applicable*
 - ❖ *Packing list*
 - ❖ *AWB copy*
 - ❖ *Shipper's Declaration for DG for RXS (only 1.4S)*
- Also, overflight permit must be obtained for MUW*
